RBC CUP COMMITTEE CONTRACTS EVENT COORDINATOR

HUMBOLDT, SK, JANUARY 4, 2012: The RBC Cup Executive Committee has contracted the Humboldt District Hospital Foundation to be the Event Coordinator for the RBC Cup tournament that will take place in Humboldt from May 5-13, 2012.

There have been so many volunteers dedicating a lot of time to the RBC Cup event already and the demand for their time is going to continue to grow as we move closer to the date, stated Kevin Dow. Dow continued to explain that the RBC Cup event is at the point where they need that one person or in this case organization to dedicate their time to ensure that all of the committees are completing their tasks and the event gets put together.

The employees at the Humboldt District Hospital Foundation have the knowledge and expertise of coordinating events and are aware of the RBC Cup event itself. Lorrie Bunko, Executive Director for the HDHF, is quite excited for this new challenge. "The HDHF is always looking for unique ways of raising funds in order to purchase equipment and support programs at the

Humboldt District Hospital. Being the Event Coordinator for a prestigious event like the RBC Cup is going to be a great experience and benefit us financially”, stated Bunko.

Hockey Canada appreciates the time and commitment it requires for a host organizing committee to execute a national championship and looks forward to working with the HDHF to assist in supporting the efforts of the volunteer base for the 2012 RBC Cup. Hockey Canada event manager, Ryan Robins, is already impressed by the efforts of the host group to date, with ticket sales going extremely well, and looks forward to working closely with the HDHF in an attempt to host the best ever RBC Cup.
